Travel tins and Lip balm

Travel tins

No car should be without a travel tin as part of it's emergency kit. Works great for the cottage or stovetop too. Available in two sizes.

Small \$6.50

Large \$9.

Lip balm

All natural oils, butters and beeswax make our lip balm smooth, luscious and so good for your lips. We make it in small batches and because we do not add preservatives other than Vitamin E oil our lip balm will not last in your cupboard for years...best to use it within 4-6 months.

Cocoa Coco is made with natural cocoa butter (smells like chocolate) and coconut oil (smells like coconut) giving it a slightly sweet scent. Very smooth.

Rosemary Mint is made with unscented oils and butters and has rosemary and mint essential oils added.

Blueberry Honey has real Nova Scotia honey added and an artificial blueberry flavouring (no natural blueberry oil available)

\$4 per tube

\$10 for three (mix and match)

We also make a limited selection of small batch balms, creams and salt scrubs using natural oils, butters and of course beeswax. Since everything is made with all natural ingredients and shelf life is limited, these items are mostly made to order. All of the balms, creams and scrubs are available in custom packaging... Please inquire
